K ONE VENTURES

Making Technology Work For You!

SchoolBellQ Services

(A Comprehensive Solution From **Admissions to Alumni**)

A COMPLETE SCHOOL AUTOMATION SOLUTION

Meet KIYA AI – the smart assistant inside your ERP NEW

A chatbot built into SchoolBellQ. Ask in simple words – "What are the pending fee dues?" – and KIYA finds the information in your ERP and pops it up instantly. It can act too: send reminders just by speaking into the microphone or typing.

Ask anything | Instant answers | Send reminders | Speak or type

Our Vision & Philosophy

*We stand apart from the many ERPs in the marketplace because of one overarching business philosophy: "**Customer Empathy**". This foundational value means we treat you as our partners, not clients, and it remains the central focus of everything we do. We actively customise our software to match your workflow – not the other way around.*

Customer Empathy shows in 3 critical attributes of our service:

1. **Service edge** – *on-premise School Associate, dedicated account manager, 24×7 customer care*
2. **Active customisation** – *software aligned to your existing workflow*
3. **Constant upgrades** – *new modules, AI features like KIYA AI, and a continuous infusion of the latest technologies*

SCHOOLBELLQ

4 Reasons Why We Score Over Competitors

1 SUPERLATIVE ADMIN PLATFORM

An integrated platform with rich functionalities, intuitive features and intelligent insights. A superior admin platform with a unified view of everything – now with Power BI dashboards.

2 SERVICE EDGE

On-premise service personnel ensure value-added delivery. Our Managed Service model puts the Onus on Us to make sure value is delivered fully – backed by a dedicated account manager and 24×7 care.

3 AHEAD ON TECHNOLOGY

Continuous upgrades, embracing new technology proactively: KIYA AI assistant, AI-proctored online tests with analytics, AI timetables, AI transport and face-recognition attendance.

4 COMPLETE BOUQUET

Meeting school needs END to END on a single unified platform – 12+ integrated products and role-based apps, in a large, growing portfolio that keeps pace with schools' evolving needs.
